NAME

Probable Missiles at Rail-to-Road Transfer Point, Tatishchevo ICBM Complex

COUNTRY

GEO COORDINATES

USSR

51-41N 045-32E

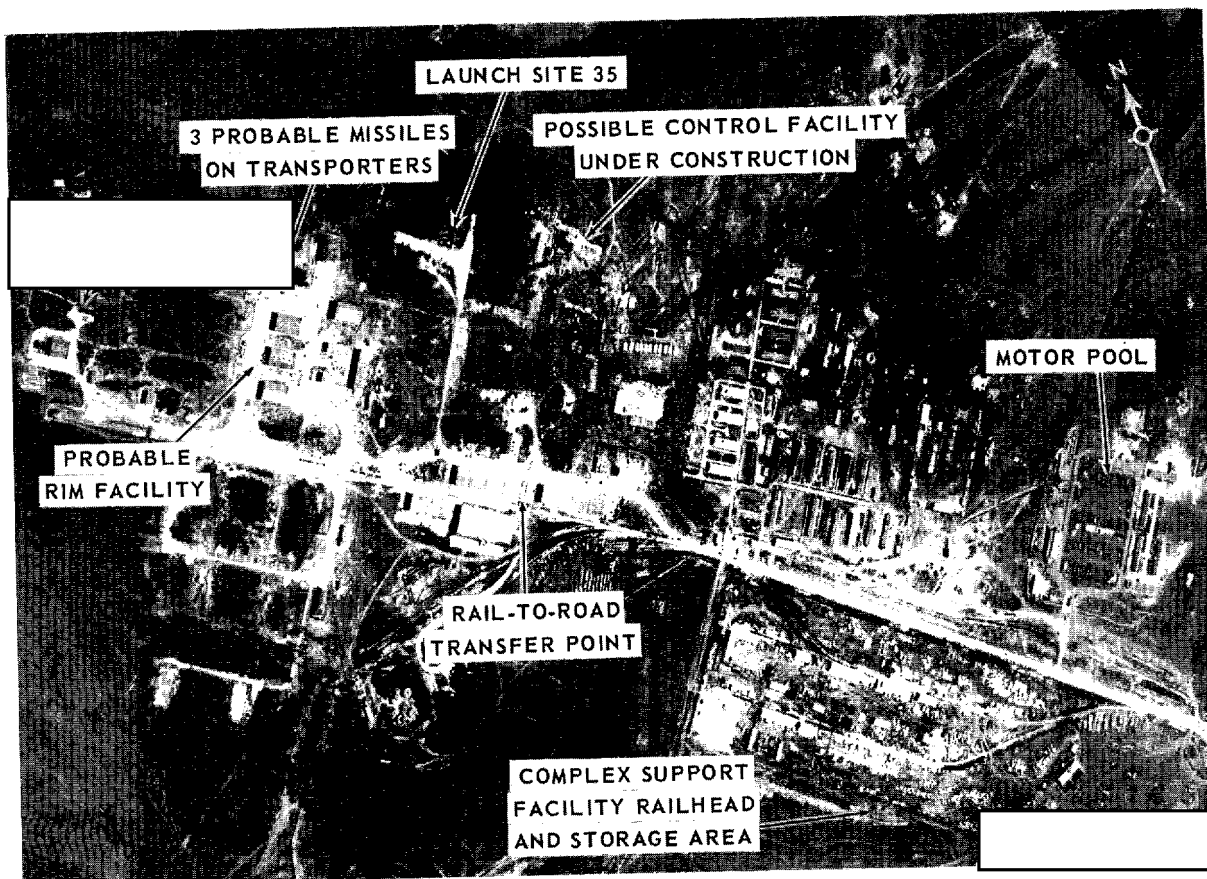

25X1

25X1

Three probable missiles on transporters are positioned in front of the NW building of the probable RIM facility at the complex rail-to-road transfer point. Two of the probable missiles are approximately 70 feet in length; the third cannot be measured. Each of the probable missiles is towed by a prime mover.

The probable RIM facility consists of 2 drive-in buildings, 3 drive-through buildings, and 4 drive-in buildings which are near completion.
